

# **Striker HD** Training Centre Model

## The Ultimate Square-to-Round Machine!

With its sleek, highly functional and ergonomic design, the **Striker** brings productivity to a whole new level; producing quality-leading off-set and center-line square-to-rounds in **half the time!** The **Striker** provides versatility, quick turn around time, convenient portability, requires shop-air only (90-120 psi), is fully guarded for safety and requires limited space.

### **Striker HD:**

Training Centre Model

- 80mm Cylinder
- Capacity up to 16 Gauge & up to 24" in Length

The **Striker's** QPR (Quick Pivot Release) handle forms off-set and center-line square-to-rounds quickly and easily, as you raise the blade and set metal to pivot pin.

Put the *Ultimate Square-to-Round Machine* to work in your training facility today and discover why the **Striker** is vastly becoming a worldwide shop staple in the HVAC Sheet Metal Industry, for sheet metal fabrication!
