

CHECKMATE

DIAMOND PLATE ROLLS

Distinctive diamond-plate finishes for light-gauge sheet metal, exposed ductwork and decorative low-pressure applications.

A FINISH THAT STANDS OUT

Built for exposed ductwork and architectural applications

CheckMate impresses a diamond-plate pattern into light-gauge metal, giving spiral pipe and fittings a distinctive finished appearance. It is well suited to restaurants, pubs, showrooms, shops, malls, outlets and other spaces where exposed low-pressure ductwork becomes part of the design.

A practical way for HVAC shops to add decorative fabrication capability.

STANDARD FEATURES & CAPABILITIES

MATERIAL CAPABILITY	Galvanized steel, stainless steel, copper, aluminum and Paint Grip	CONTROL	Foot pedal operation
GAUGE RANGE	26 gauge to 20 gauge	POWER	Single-phase or three-phase electric
WORKING WIDTHS	Available in 3 ft, 4 ft or 5 ft widths	VOLTAGE	Various voltage configurations available
EDGE OPTIONS	Margins or no margins	SPEED	Variable-speed options available

DESIGNED FOR VISIBLE DUCTWORK

Turn exposed mechanical systems into a design feature

Open-concept ceilings put ductwork on display. CheckMate adds visual texture to spiral pipe and fittings made from the light-gauge metals commonly used in low-pressure systems.

The finished pattern delivers a bold industrial appearance for modern commercial interiors.
