

# **G** **Force** **Gore Locker**

*Bring the FORCE to Your Shop!*

**G-FORCE** Gore Lock Machines are designed for versatility and ease of use. The **G-FORCE** is built in two sections, allowing operators to place them in different configurations according to shop space. These machines fabricate elbows, offsets, tapers, and end caps from 8" to 40" and gauges 26 to 18. The **G-FORCE** runs on pneumatics and servo drive electrics to achieve a quiet and powerful drive.

## **ADDITIONAL FEATURES:**

- 2 piece configuration
- Adaptable to any shop
- Silent operation
- Solid construction
- Low power consumption
- 220 volt 3 phase or single phase
- User friendly controls
- 8" - 40" fittings
- 26 gauge to 18 gauge
- Minimal shop air required
- Reduces shop welding
- No consumables
- Strong standing seam construction
- Up to 18 gauge capacity
- Elbows, tapers, offsets, and end caps
